

Newfound Baptist Church Student Ministry

Student Medication Log

Dear Newfound Parent,

During your student's time at Newfound Baptist Church Student Ministries your student will go on numerous overnight trips and multi-night trips. We understand that many students have medication that must be taken regularly. We want to ensure that your student's medication will be taken correctly, on time and on schedule. Below is a table where you can list any medications your student regularly takes.

Name of Medication	Reason for Medication	Dosage Instructions	Frequency Instructions

If there are any other concerns, comments, notes or information that needs to be communicated in reference to your student's medication please use this space for that information:

While your student is on overnight and extended stay trips the Pastor or other designated adult will be responsible for storing and administering your student's medication. This is for the church's safety as well as the student's.

By signing this form you agree to all terms described above in this form.
