

Newfound Baptist Church Student Ministry

Photo/Video Consent Form

Dear Newfound Parent,

Newfound Baptist Church Student Ministries loves to photograph and videotape events, services and other activities the students will be involved in during their time with us. The Pastor and staff manages a Facebook page as well as a church website that contain photographs of our members. The purpose of this is to display to others outside of the church the friendly and loving atmosphere that is in and around Newfound Baptist Church Student Ministries. We also believe that it is important the students have photographs and videos to look back on after they have left the Student Ministry.

While we value recording our activities via photography and videography we also understand that some may not want their child's picture placed on the internet. We would like for you (the parent) to let us know if you give us permission to use your student's picture or appearance in any video on social media or on the church's website.

Do you give Newfound Baptist Church this permission?
